

## Eduphoria

Your log in credentials are created for you using your email address as the user name with a temporary password being generated upon your employment. You will receive an email containing this password and instructions on creating a new one. This program requires you use 3 out of the 4 following items to create a new password - Uppercase, lowercase, number and special character.

If you ever forget your password it will be reset as Changeme1. PLEASE always change this to something else as soon as you log in.

Once you are in Eduphoria you can click on the PROFILE tab at the top right and follow the leads to change your password. If you have difficulty or have questions regarding anything in Eduphoria you may contact Dennis Boyd or Melody Baker in Technology.
