

# SMART SNACKS A LA CARTE MENU

## 2016-2017

The Healthy, Hunger-Free Kids Act required the United States Department of Agriculture (USDA) to establish nutrition standards for all foods and beverages sold to students outside of the National School Lunch Program and School Breakfast Program meals on the school campus during the school day. These science-based nutrition standards known as “Smart Snacks in Schools” promote a healthy school environment and apply to all foods sold, such as: a la carte cafeteria sales, school stores, snack bars, vending machines, and fundraisers. For more information on the “Smart Snacks in Schools” guidelines, please visit [www.fns.usda.gov/es/node/10254](http://www.fns.usda.gov/es/node/10254).

In compliance with these Smart Snack guidelines, Pampa ISD now offers a variety of healthy choices for students to choose as a snack. Below is a list of pricing for the items available for students to purchase.
