Grouping Courses

If the assignments will be the same for all or some of your courses, you can create groups of alike courses. When you add an assignment to one course, it will automatically be placed on all the courses in the group.

1. Select Settings > Course Grouping

2. Type in the name of your first group and select Add Group

Course Grouping

Here you can create and manage course groups. This will enable you to enter

Available Course Groups

No course group data exists

Name:

3. Click the + beside any courses that will be in that group

Course Group Detail

Group: Practice

Associated Courses
