Welcome ASCENDER StudentPortal!

StudentPortal is a web-based system for students that provides the tools that will help you view your attendance, grades, and assignments, as well as organize and plan your schedule of classes. StudentPortal includes two applications, Student Course Requests and Student Graduation Plan.

Student Course Requests allows you to request courses for the next school year, including alternate courses. Once you submit your course requests, you cannot go back to change them. If you need to make changes, you will need to visit with your counselor.

Student Graduation Plan allows you to view and change your graduation plan, and view and print the summary and detail of your course credits. Graduation plans are for high school-level students only. Any coursework completed prior to the 9th grade will be reflected in the remaining credits needed, which can be viewed through the Credit Summary and Credit Detail pages of the StudentPortal Student Graduation Plan application.

MOBILE DEVICE USERS: Your assignments are listed below the filters. You may need to scroll down to view data.

TIP: Click a column heading to sort the assignments by that heading in ascending order. Click the column heading again to sort in descending order.

- If an assignment grade has been dropped, the message “dropped” is displayed next to the grade.
- If an assignment grade has been excluded, the message “excluded” is displayed in place of the grade.
- If an assignment is missing, the message “missing” is displayed in place of the grade.
- If an assignment is incomplete, the message “incomplete” is displayed in place of the grade.
- If the student is withdrawn from the course, the message “(withdrawn)” is displayed next to the course title.

STANDARDS-BASED GRADING: If the course uses the standards-based type of grading, assignments are associated with specific standards. For these courses, the Standard Scores heading is displayed in the table. For each assignment, all associated standards and grades are displayed. Note that assignments may have multiple standards. Also, an assignment may be associated with more than one standard, so you may see the same standard for multiple assignments. The grade for the course is calculated from the scores for the standards, not the assignments.

Some districts use the name SKILLS REFERENCED GRADING to refer to this grading type.

III. Request Courses

If allowed by the campus, the student can request courses for the upcoming school year.
Enter and submit course requests.

ASCENDER StudentPortal > Course Request

The Course Selection page allows you to select and submit course requests for your next year school schedule.

NOTE: If you log on to the application and you are only able to view the Confirmation page, you have either already submitted your course requests, or your campus has changed the application settings to view only. If no courses are listed on the Confirmation page, you have not requested courses for the next school year and will need to meet with your counselor.
To begin selecting courses, you must have the appropriate number of **Course Requests Units Remaining** available. The **Course Requests Units Remaining** field is located in the left-side navigation bar.

**Course Requests Units Remaining** is the number of units available for you to select from the **Available Courses** section.

- Most courses are worth two units because the course is two semesters long. The units depend on your campus and the number of semesters required for the course.

- The number of units required for each course is displayed in the **Units** column of the **Available Courses** section.

- Once **Course Requests Units Remaining** is zero, a warning message is displayed notifying you that you will not be able to select additional courses unless you remove a previously selected course from the **Requested Courses** section.
  
  - **Course Requests Units Remaining** will decrease as you add courses.
  
  - **Course Requests Units Remaining** will increase as you remove courses.

**Select courses:**

Subjects are listed across the top of the page.
☐ Click the subject area you want to view.

When you click a subject area, the list of courses under the **Available Courses** section will change to correspond with the subject selected. For example, when you click **Science**, all courses in the **Available Courses** section will change to science classes available at your campus.

![Course Selection](image)

You can click the **Number** or **Course** column heading to sort the columns in ascending order by course number and course name.

**Left grid:**

☐ Under **Available Courses**, click [+] to add a course.

  • The course is moved to the **Requested Courses** list (right grid) and is no longer displayed under **Available Courses**.

  • The **Course Requests Units Remaining** field decreases by the appropriate number of units.

**Right grid:**

☐ To remove a course from the **Requested Courses** list, click [-] in the **Drop** column.
• The course moves back to the Available Courses list (left grid) and is no longer displayed under Requested Courses.

• Course Requests Units Remaining increases by the appropriate number of units.

NOTE: If a course is displayed in the Requested Courses list and you do not have the ability to remove it, it was added by your campus, and you will need to meet with a counselor to discuss it.

Select alternate courses:

• From the Available Courses list, click to add an alternate course.

A pop-up window opens allowing you to select the course for which you want to add this alternate course.
The window lists your requested courses. Click a course to select it.

In the example above, if the TECH WRITING course is not available, the CREATIVE WRITING course will be substituted.

When you click the course, the window closes, and the selected alternate course is displayed in the Alternate Courses For list and is no longer displayed in the Available Courses list.

**NOTE:**

- Only courses with an assigned course number are available.
- Only three alternate courses may be selected per course.
- A proxy course (i.e., a group of courses that are scheduled together) cannot be added as an alternate.

Under Requested Courses, the Alt column displays in parentheses the number of alternate courses added for the course.
☐ Click ▶ to view the alternate courses.

The alternate courses are displayed in the Alternate Courses For list.

☐ To remove an alternate course from the Alternate Courses For list, click ✗ in the Drop column next to the appropriate course.

- The course is displayed in the Available Courses list and is no longer displayed in the Alternate Courses For list.
- If a course is displayed in the Alternate Courses For list and you do not have the ability to remove it, it was added by your campus, and you will need to meet with a counselor to discuss it.

☐ Under Alternate Courses For in the Rank field, you can rank the order in which you want the alternate courses to be applied to your course requests.

For example, if a course is not available, the alternate course with a rank of 1 will be the first alternate course attempted to replace it. If that course cannot be applied, the course with a rank of 2 will be attempted, and so on.

NOTE: If the counselor has specified the rank order, it cannot be changed.
Before submitting your course requests, confirm each of the following:

- All information on the About Me page is correct.
- You are satisfied with your selections.

No changes can be made once you click Submit.

Course Requests Units Remaining is equal to zero.

If Course Requests Units Remaining is not zero when the request is submitted, a warning message will notify you that you still have units remaining, and you will need to meet with your campus counselor at a later date to complete your schedule. Click Continue if you wish to proceed.

Click Submit to submit your list.

A message is displayed confirming your choice to submit your request.
• Click **Continue** to view the **Confirmation page**.
• Or, click **Cancel** to continue adding or removing courses.
Click to view the history of courses you have taken for the selected subject area. The Subject Credit Detail window opens, listing each course you have taken in the subject area, including the credits earned, the semester and final grades, and important credit detail.

Click OK to close the window.

To view the history of courses you have taken for a different subject area, select a different subject area under Subjects, and then click Subject Credit Detail.

The Confirmation page allows you to view and print your submitted course requests.

Once you have submitted your course requests, you will no longer be able to make changes. If you would like to add or remove any courses, you will need to meet with a counselor.
At any time, you can log on to the Student Course Requests application to view and print this information.

Any difference is displayed in this column. • If all required credits have been accounted for in the subject area, a zero is displayed.
